Contact Shinfan Stephanie Chang, Licensed Speech-Language  
Pathologist, for questions or to schedule an appointment

Visit [www.shinfanchang.com](http://www.shinfanchang.com) for more information

**Are you concerned about your child's speech-language development?**

Communication skill is the most important indicator for academic success. Speech therapy is most effective if treatment is started early (the earlier, the better). In order to help children with communication difficulties be identified at an earlier age, this service is offered to the community.

**This activity is supported by the following organizations:**

**Illinois Speech-Language Hearing Association (Multicultural Committee)  
American Speech-Language Hearing Association (Asian Pacific Islander Caucus)**
